Brain Injury

YOU ARE WELCOME

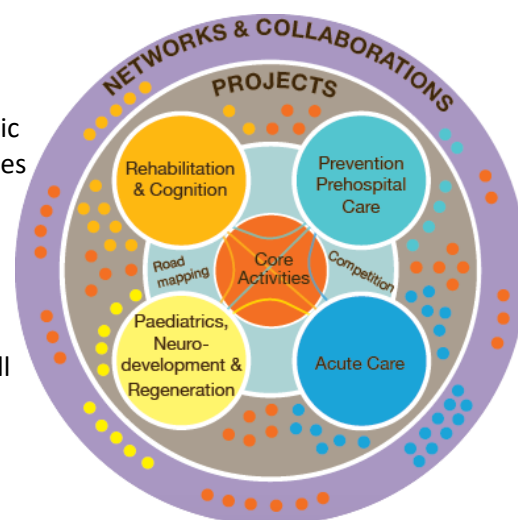

If you are or have been a **Patient, Family or Carer of Patient, Researcher, Clinician, Small or Medium Enterprise, Start-up, NHS organisation, Charitable Organisation** – or have an interest in what the NIHR and Department of Health and Social Care have planned for MedTech Co-operatives – **it will be well worth attending!**

This **free-to-attend** event is a unique **interactive** opportunity to explore and discuss our 13 Clinical themes and 4 core activities (including Patient and Public Involvement) as we present what we will be doing to improve patient outcomes and experiences over the next 5 years.

There will be ample **opportunity for networking** both during the meeting and a drinks reception afterwards.

Information will be available about the **NIHR funding and communities** as well as from the organisations represented.

Event programme along with confirmed speakers will follow early in April.

In the meantime, **GET INVOLVED** in research with [RHITE](#) - Register for Healthcare Involvement and Technology Evaluation – and book a **FREE TICKET** for the event on [Eventbrite](#)

For more information contact us at fp350@cam.ac.uk or 01223 336944 and follow us on Twitter [@NIHRBrainMic](#)
