

SEEKING BRAIN INJURY SURVIVORS AND THEIR CARERS

WHOM ARE WE LOOKING FOR?

We are looking for people who:

- Are 18+
- Are fluent English speakers
- Have experienced a brain injury (stroke, brain tumour or head injury) or provide care for someone who has
- Are able to participate in an interview lasting 30 min (no severe language deficit)
- Are able to consent to the study

THE RESEARCH

We want to **develop an APP** to treat those that have trouble noticing things on one side of space (spatial neglect). We would like **your thoughts** to help us better design this APP so that it meets the needs of the people who will use it!

You will be able to take part in an interview focused on the design of the app so that we can help those with spatial neglect. Your thoughts will help us improve the app and develop it further!

Before you choose to participate in this research, please, take a week to talk about it with your family and friends.

If you think you or someone you care for had a brain injury, you could help in our research!

Your opinions will help make the APP more usable by the people who need it most. To thank you for your time we will offer you a **£4 Amazon voucher**.

You don't need to have experience with technology! We are interested in **everyone's thoughts** on the app. We want to make it user-friendly, engaging, and fun for everyone.

If you require further information about brain injury, or life after brain injury visit:

www.headway.org.uk

Or visit the Stroke Association at **www.stroke.org.uk**
